We Got the World

Eric Saade

You're calling me a freak while I'm having fun
You said I must be high 'cause I'm using love
I'm just living life, I will never stop
I got the world

We can live fast fly young
Every day we celebrate just like we want
Yeah, no one else but me decides
I found a way to live my dream until I die

Just come into my arms
I will get you love drunk
We'll be burning ground
Could be us against the world tonight

You're calling me a freak while I'm having fun
You said I must be high 'cause I'm using love
I'm just living life, I will never stop
I got the world, yeah
We got the world

Black shades, bright nights, no turning back
I do this till the end of time
You told me to go live and learn
I told you I would fight until there's no return

Just come into my arms
Yeah, I will get you love drunk
Yeah, we'll be burning ground
Could be us against the world tonight

You're calling me a freak while I'm having fun
You said I must be high 'cause I'm using love
I'm just living life, I will never stop
I got the world, yeah
We got the world

You're calling me a freak (While I'm having fun)
They said I must be high ('Cause I'm losing love)
I'm just living life, I will never stop
I got the world
We got the world
The world
