

# Wide Awake

Eric Saade

You've been around for a year like you just don't care  
I want your love but your love's not in the air  
I wanna believe I can leave but it makes me scared  
Yeah you've been around for a year like you just don't care  
Every time I'm praying, praying  
I got you on my mind  
No matter what I'm saying, saying  
You come back in my life  
You just wanna break it, break it  
You're sending me to paradise  
No way I can't escape it, escape it  
I'll never win the fight

You keep me wide awake every day every weekend  
Day every weekend, day every weekend  
You keep me wide awake every day every weekend  
Day every weekend, day every weekend  
You keep me wide awake every day every weekend  
Day every weekend, day every weekend  
You keep me wide awake every day every weekend  
Day every weekend, day every weekend

Keep you wide away every day, every weekend  
Day, every weekend, day, every weekend  
Deep inside your head, I can feel how you weakened  
Feel how you weakened, feel how you weakened  
Feel you might be the flame that surround your iron  
I'll be the water that cool you down  
Be the balance of ice and fire  
Deep in the underground  
Every day, every week, every bleeding hour  
You been starting to lose control

I will leave you to your desire  
But I won't let you sing along

You keep me wide awake every day every weekend  
You keep me wide awake every day every weekend  
You keep me wide awake every day every weekend  
Every day every weekend  
You keep me wide awake every day every weekend  
Day every weekend, day every weekend  
You keep me wide awake every day every weekend  
Day every weekend, day every weekend  
Every day, every weekend  
I got you on my mind

You've been around for a year like you just don't care, yeah yeah  
I want your love but your love's not in the air  
Every time I'm praying, praying  
I got you on my mind  
No matter what I'm saying, saying  
You come back in my life  
You just wanna break it, break it  
You're sending me to paradise  
No way I can't escape it, escape it  
I'll never win the fight, yeah yeah

You keep me wide awake every day every weekend  
I keep you wide awake every day every weekend  
You keep me wide awake every day every weekend  
Day every weekend, day every weekend  
You keep me wide awake every day every weekend  
I keep you wide awake every day every weekend  
You keep me wide awake every day every weekend  
Day every weekend, day every weekend
