

I Can See Round Corners

Eric Woolfson

I can see round corners
When the night is clear
I can make the rain fall
I can make it disappear

I am passing high ground
I can see for miles
I can rise forever
When the child of fortune smiles

I can see round corners
(I can see round corners)
I can see for miles

Climb upon a rainbow
When the wind is high
(When the wind is high)
I can hear the grass grow
I can reach and touch the sky

I can walk through high walls
Never knowing why
(Never knowing why)
Going round in circles
(Going round in circle)
Soaring where the eagles fly

I can see round corners
(I can see round corners)
I can see for miles

I can walk on water
I can turn back time
(I can turn back time)
When Orion rises
(When Orion rises)
And the sisters three align

I can chase the North Wind
Hold it in my hand
(Hold it in my hand)
I can make the tide turn
At the call of my command

I can see round corners
I can see round corners
I can see round corners
I can see round corners

Ah . . .
Ah . . .
Ah . . .
Ah . . .
Ah . . .
Ah . . .
Ah . . .

I can see round corners
I can see for years
Through the veil of evening
Till the morning star appears

I can see round corners
Much to my surprise
I can see the future
When it's time to close my eyes

Close my eyes
Close my eyes
When I close my weary eyes
