

Changes

Erica Campbell

Spring turns summer
And summer to fall
Fall turns to winter for sure
Seasons change, joy and pain
Life is full of many

Changes
Sometimes it's hot sometimes it's cold
Changes
You start out young then you grow old
Changes
Out comes the sun, down comes the rain
Changes
You live and you learn
Nothing stays the same

You plan for the future
But how could you see?
That some things were not meant to be
We make our plans
But it's all in God's hand
Life is full of many

Changes
Sometimes it's hot sometimes it's cold
Changes
You start out young then you grow old
Changes
Out comes the sun, down comes the rain
Changes
You live and you learn
Nothing stays the same

Everything happens for a reason
A purpose, a plan, and a season
And with each day you'll find a way
To embrace each moment

Changes
Sometimes it's hot sometimes it's cold
Changes
You start out young then you grow old
Changes
Out comes the sun, down comes the rain
Changes
You live and you learn
Nothing stays the same

Changes
Just like the weather things are gonna get better
Changes
Someone tell them, keep yourself together
Changes
Ooh we all, we all, we all going through
Changes
Ohh
Changes

We gotta go through them yeah
Changes
Things don't stay the same, they don't stay the same
Changes
Oh yes we go through
Changes
It's gonna be alright
