

# Help

Erica Campbell

Oh, hands up high  
E.C., Lecrae

I confess S.O.S I need ya daily  
I can't lie see the pain don't phase me  
My God who gon' help these babies

[Chorus:] Help, help, Lord, I need your help

My, my, my

I been in the fire so long  
I can't get burned no mo'  
I thought you was puttin' out the flame  
But it was rain from the storm  
Thoughts all in my head  
Makin' me stressed  
All day long  
They won't let me rest  
"S" on my chest  
I ain't that strong

I need a life line right now  
911 won't do  
My back's against the wall now  
I've done all that I can do  
I prayed every prayer  
Went to every service  
Like I know how  
Just a ship without a sail  
I'm lost without your help

I need help  
Oh, Lord, I need your help  
Whoa ooh, Lord

Said I do but to tell the truth  
Sometimes I don't  
But it ain't about my will  
It's all about what you want  
Your family used to be first  
Things getting worse  
In my home  
My brother is hurt  
We need a word  
It's too far gone

I need a life line right now  
911 won't do  
My back's against the wall now  
Done all that I could do  
I prayed every prayer  
Went to every service  
Like I know how  
Just a ship without a sail  
I'm lost without your help

,

Lord, it's me this time  
Said I'm cryin' all day  
I just can't make it if I don't have your (help)  
Whoa said I really need

Dear Lord, I need a little help now see  
I feel left out  
I can't tell my right from my left now  
My mama's cryin' 'cause my daddy's dyin'  
He got pains all in his chest now  
My daughter's having these nightmares  
I might be wrong but I'm right here  
I'm tryin' a hold on but my hands hurt  
Or the ropes out 'cause when life fights it don't fight fair  
So I'm leaning all on these ropes now  
I got hope but it's slow now  
So I'm leaning all on these quotes now  
Like never leave me  
Won't forsake me  
If you don't help me  
I don't make it

Said you'd never leave me  
So, come on, Jesus  
Lord, yeah  
Lord, yeah  
Does anybody need the Lord?  
I can't make it without you, Lord, oh,  
Somebody laying in the hospital right now  
Need you to make it alright  
God I just lost my daddy,  
I need  
Yes I need  
Oh, yes I need  
Yeah, yeah, yeah
