You're mine
Why's love so hard to find?
You wait out for your ride
Fucked-up I was out all night
Cheap liquor got me out my mind
Why's love so hard to find? Ay
You wait out for your ride
Fucked-up I was out all night
Cheap liquor got me out my-

I always hate it when you come around
She like kerosene, burn it to the ground
And when sun rise I'll be skipping town
Bottoms up, another cup, another round

I'll rent a spot in the hills where we can mess around
What took so long to get you off the ground?
House party in the valley, and you might go
Wallflower, you know I don't really like those

Lost my grip but I don't feel like giving up
Fuck I look like writing back?
Pussy to a sitting duck
OK really I can't give a fuck
Who is he?
Not one of us
Teeth clenching baby finally had enough

Why's love so hard to find?
You wait out for your ride
Fucked-up I was out all night
Cheap liquor got me out my mind
Why's love so hard to find? Ay
You wait out for your ride
Fucked-up I was out all night
Cheap liquor got me out my-
