Glasear!

I don't mean that
Is it safe when drugs are rotting my brain?
Bitch, I know that you love me, you want me to feel the same
And I grind my teeth, the pussy MDMA
Got on another plane, I'm going to different places
I know you watch me sleep
Standing over me, creep
I just want the surface, don't wanna go underneath
And I been moving peace, the [?] I like to see
When I be doing things I shouldn't really be doing

I forgot, everything you said, it doesn't matter to me
And everytime I hear your name, it gets harder to breathe
Filled with anxiety, I keep grinding all on my teeth
Without a thought, you cut me open, and you watching me bleed
And you can't get enough, rough sex, it feel like drugs
Lit cigarette up on your lips, I taste it on your tongue
I'll pull my hair out, drive me crazy, and it's just for fun
Stuck in the past, ain't no arguments you could've won
I know my place, these drugs got my mind a-racing
I'm hoping it's not too late, keep wishing that I would change
And I know just who you are, you're telling me I'm a star
I'm someone you disregard, I know your secrets and scars
My mind's been moving slow, hear voices from down below
Emotions I didn't choke, I'm sorry to let you know
My body's turning cold, I'm breaking right at my mold
Lend me your hand to hold, and bury me, watch me go

I don't mean that
Is it safe when drugs are rotting my brain?
Bitch, I know that you love me, you want me to feel the same
And I grind my teeth, the pussy MDMA
Got on another plane, I'm going to different places
I know you watch me sleep
Standing over me, creep
I just want the surface, don't wanna go underneath
And I been moving peace, the [?] I like to see
When I be doing things I shouldn't really be doing

I love the look you give me when you're lying to me
I'm so fucking nervous, can't help grinding my teeth
Yeah, I love the look you give me when you're lying to me
I'm so fucking nervous, can't help grinding my teeth
Can't help grinding my teeth
I'm so fucking nervous, can't help grinding my teeth
