H-H-Hi I'm Dante

I'll take any damn pill to make me feel better
Coughing like it's Anthrax, trapped it in a sealed letter
W-W-Walking 'round headless like I don't know better
L-L-Left his ass headless, now he on a stretcher

Smokin' doom pack, you already knew that
Black mask, walking 'round the town asking "Who's that?"
K-Keep it quiet, don't be loud, hit his shoulders, spin around
Hollow tip, a hundred rounds, silencer, won't hear a sound
It's unfortunate that your bros are in the ground
B-B-Break into the base, no one knows that I'm around
Smokin' SG, FC, I can't even see
Yeah, your bitch text me, neck me, now she outta reach
I reload, slug, slug, slug like I'm Blackwinterwells
Don't give a fuck, fuck, fuck about how you and your bros feel
Take advantage of women, don't really fuck with that
Mixing up his brains with a scalpel, I'm not gon' put it back
All he see is tears like it's Helix, I don't even mean it
Step to me before I got control and you gon' get deleted
Please God, I've been praying, looking for a reason
They gon' find doom body in the back steady bleeding
Hear a cop car, finish you, your heart's still beating
The Smith & Wesson my protection, find a spot where I can leave
it

I'll take any damn pill to make me feel better
Coughing like it's Anthrax, trapped it in a sealed letter
W-W-Walking 'round headless like I don't know better
Left his ass headless, now he on a stretcher
