

I Can Do Anything

ericdoa

You was up now you broke, tragic
Made yo' bitch disappear, magic
Design this brand new fashion
Can't fuck with cash, money plastic
Give me your deep compassion
That lil bitch like beauty pageant (Damn)
Stretchin' like elastic
Do a backflip, feel fantastic
Life flash fore my eyes
Nah bitch, don't know why
Stop I'm afraid to die
Bite my tongue, I lie
Hit it for my brothers, and my team
Wishin' I was livin' in my dream
Just hold up, wait I do that
Baby, I just wish you knew that

I can do anything
I fought my enemy
Sweet like a melody
I'll leave my legacy
Money my speciality
Bitch drain my energy
I can do anything
I fought my enemy
Sweet like a melody
I'll leave my legacy
Money my specialty
You drain my energy

Ooh, ooh
Ooh, ooh

Stop it and look can't move fast
[?] then I hop in the jag
Fuck your ex, boy I'm on your ass
Makin' racks in the middle of class
Old friends, they were left in the past
Wifi bitch, this digital dash
AMG when I'm three on the dash
[?] when they laughed
Aight, I'm tired of waitin'
My thoughts, man I hate it
Bitch you come and save me
Build me up, then break me
It's just not worth textin'

Happy, I'm escaping

I can do anything
I fought my enemy
Sweet like a melody
I'll leave my legacy
Money my specialty
Bitch drain my energy
I can do anything
I fought my enemy

Sweet like a melody
I'll leave my legacy
Money my speciality
You drain my energy
