Ah, ooh
Promise, it won't take too long
Yeah, I hate this song
Swear that it won't hurt at all

Overachiever
Nobody believes her
Pray to a false god
Until my knees hurt
You're in my bloodstream
Hot like a fever
If I knew you like you knew me
Then I wouldn't like me either

Apologies, hey, I'm sorry if I talk too much
I speak in circles, yeah, no wonder why my tongue's tied up
I've seen it all
There's not a person I think I can judge
If you need somebody to lean on
Girl, I'm the perfect crutch

Don't think, we'll leave (Okay)
Don't think, we'll leave
Alive
I'm cool, I'm good
I'm straight, I'm fine
Don't think, we'll leave (Okay)
Don't think, we'll leave
Alive
I'm cool, I'm good
I'm straight, I'm fine

Don't think that we'll make it out alive
But we can try-try
Don't think that we'll make it out alive
I'm right behind you

I'll stop, it's true, I lied
Just need to buy some time

Got a second wind, don't want to live again
I feel your presence here, I know you're entering
You're always seeing something and can't say what it is
You been damaged, can't let no one in

Follow me, we're walking through the dark
You're tryna change, it's gon' be a little hard
You feel insane, yeah I knew, that from the start

Don't think, we'll leave (Okay)
Don't think, we'll leave
Alive
I'm cool, I'm good
I'm straight, I'm fine
Don't think, we'll leave (Okay)
Don't think, we'll leave
Alive

I'm cool, I'm good
I'm straight, I'm fine

Ah, ooh
Promise, it won't take too long
Yeah, I hate this song
Swear that it won't hurt at all
