

When I hop on the beat, Im'a step  
Crackin' shit like I play for the Mets  
You'll never be me, just give it a rest  
I'ma just keep it direct  
F&N, and it's aimed at ya head  
If I miss, then I take off ya legs  
Keep it quiet, I don't like to flex  
You can tell that lil' boy what I said

I was leanin' like a kickstand with your bitch, man  
Never heard one song, but she still a big fan  
Heard the beef not squashed, you can be the big man  
Got 'em all choked up like he fell in quicksand  
I'm a grown-ass man, girl, I don't need you  
I can never tell a lie, girl, I'm too see-through  
Know I came off strong, but I didn't mean to  
Gotta couple lil' things I can really teach you

Tryna say I fell off, never been so wrong  
Tryna stack my shit, get rich, I'm gone  
I'm makin' hits, and these boys make songs  
They been tryna take my sauce  
She wanna stay for the night  
But I think that she gotta go  
I end up changing my mind  
I'd be stupid for sending you home

I got a rack on me, what's up?  
Push up on me, girl, show me love  
These boys don't really think too much  
Worried 'bout me, don't give no fuck

I got a rack on me, what's up?  
Push up on me, girl, show me love  
These boys don't really think too much  
Worried 'bout me, don't give no fuck
