

mistake

ericdoa

Hi Delto

Glas

I'm not who I was and I made that clear
And I don't really give a fuck what I made last year
I talk slow for your own entertainment
Opportunity people that I can play with

I stay stuck on the mistake

I don't really know how much more I can intake
Yeah, make sure that she sit straight
I left the party and I'm hoping I don't get home late

I'm tripping on my thoughts I'm hoping that I make sense
My point of view when looking at it (Through a white lens)
It's kind of funny making money helps you make friends
I toss and turn, I'm going up until the world end
You kept me down, I'm filled with fear
Break it down explain your reason
Can't help myself, I don't believe it
So insane, I beg, I need it

I stay stuck on the mistake

I don't really know how much more I can intake
Yeah, make sure that she sit straight
I left the party and I'm hoping I don't get home late
