

## Omen

ericdoa

Yeah, yeah, ay, yeah, yeah, yeah  
(Trenchwork)

Yeah, you left me hopeless, I hope that you know this  
Caught up on my sleep, I hope that everybody notice  
I can't help but feeling every day that I am broken  
Know this is an outcry, yeah, you were my omen

Had to change for the better but my mind feel worse  
Same scars on my face, more blood on my shirt  
Up my blade, don't steal, bitch, you been on my nerves  
Same pain, new day, swear this shit still hurt  
When the scar still dark, only time I feel alive  
My mind is jaded, watch the days fly by  
Move through silent hill, crack a seal, the sun rise  
I can see a blue ring in those bloodshot eyes  
In those bloodshot eyes  
These shadows, they hear my cry  
She tell my lies  
Every single, try to open mind  
Have an open  
Every single I try to open mind  
Try to open mind
