

## phases

ericdoa

I been going through phases  
I know damn well you're afraid of me changing  
What you want, baby we can make arrangements  
Send location, tell me where you staying  
Work from nine to five  
Hate your social life  
Won't act civilized

So please don't talk to me  
(Talk to me)  
I wish you would tell me what you want from me  
(Want from me)  
I've never been good with keeping honesty  
(Honestly)  
There's no way that I'll do better  
You know that it's only me  
Won't give it to just whoever

Do I cross your mind  
When you been out all night  
Introduce me as a "friend of mine"  
We both know that's a lie

Screamin' like I can't hear you baby  
The type of shit that gon' drive you crazy  
And I don't really think about you lately  
I never wanna be near you baby

Don't you talk to me  
I wish you would tell me what you want from me  
(Want from me)  
I've never been good with keeping honesty  
(Honestly)  
There's no way that I'd do better  
You know that it's only me  
Won't give it to just whoever

White lies that I told yeah I might have  
Baby you light my life like a lighter  
Playing with you like playing with fire  
But I love staying warm right besides you

(No no no)  
I don't think you're the one for me  
Baby please

Don't you talk to me  
I wish you would tell me what you want from me  
(Want from me)  
I've never been good with keeping honesty  
(Honestly)  
Yeah, there's no way that I'd do better  
You know that it's only me  
Won't give it to just whoever
