Mingo, haha
Angel

I'm in the cut, slide in with a weapon
Triple seven, yeah, you know I'm protecting
You got no money, your pockets depressing
How I came up, this shit was a blessing
How I came up, this shit was impressive
Talk down on the gang, we gon' teach you a lesson
Hop in the function, acting aggressive
Don't know who you are, can't chill in my section

Spend a rack, make it back in a week
I took one and she off three
My check hit just like Belis
She play my songs, yeah, on repeat
We not the same, I don't agree
You make me sick, just like disease
I spent a check to go get flee
In Tesla X, I'm catching speed
I'm in the hen, and I'm off it
You test the gang, and we gon' stain your ass for profit
I'm booted up, I'm DOA, I get it popping
One phone call, I put his ass inside a coffin
Is you stalking, watching?
Turn me to a topic
I got money in my hands, and a switchblade in my pocket
Say you'll die for me? Baby, keep your promise
I could give a fuck about you, I'm just being honest

I'm in the cut, slide in with a weapon
Triple seven, yeah, you know I'm protecting
You got no money, your pockets depressing
How I came up, this shit was a blessing
How I came up, this shit was impressive
Talk down on the gang, we gon' teach you a lesson
Hop in the function, acting aggressive
Don't know who you are, can't chill in my section
I'm in the cut, slide in with a weapon
Triple seven, yeah, you know I'm protecting
You got no money, your pockets depressing
How I came up, this shit was a blessing
How I came up, this shit was impressive
