

Yeah, yeah, yeah, yeah  
Yeah, yeah, yeah, yeah  
Alright, alright  
We're so alike (Like)  
Alright, alright (Alright)  
I think she might

Slide, slide, slide, slide  
I'ma do my dance, diamonds, yeah, they dance  
Yeah, I be so fried, fried, fried, fried  
I be eating Five Guys, I be holding five fries

I'm with SEBii taking dubs, not no moments to lose  
Separation, all the ties, spend them moments with you  
I need time to rewind and feel better  
Wrote out my heart, I chopped it up in these sealed letters  
I don't know why you trying to keep me down  
My brain's numb, why the fuck would I feel now?  
I packed my bags, I'm finding a way to leave town  
Top up my lungs, I'm finding a way to reach out

Yeah, find a way to reach out  
Break a leg, your knee's out  
When I scream they can't hear me shout  
If I lose it, I'll have all this doubt  
Yeah, lose it, lose it  
My mind, I think I'm a loser  
Yeah, these trips I gotta chew it  
And you can't hear, yeah, prove it  
Going hard, stupid  
My flow is so stupid  
Fell in love like Cupid  
Fell in love, you knew this  
I might take it all away, yeah, I want it that way  
I got these racks all in my face  
So much I can't even face

Slide, slide, slide, slide  
I'ma do my dance, diamonds, yeah, they dance  
Yeah, I be so fried, fried, fried, fried  
I be eating Five Guys, I be holding five fries

I don't know why you trying to keep me down
