

song for when the bar closes

ericdoa

I don't feel it yet (Baby), should I take one again?
Forever in your debt
Girl, I love you 'til the end (Yeah)
I don't wanna leave ya, when the lights come on
I just wanna dance (Give me one more song)

I know you're not the type that's gonna play on both sides
I just wanna see you at the end of my night (Night)
Said that you were perfect, girl, I knew the whole time (Time)
I just wanna see you at the end of my night

(Night)
(At the end of my night, night)
(At the end of—)
I just wanna see you at the end of my night

She think I'm important
Maybe 'cause my cards are silver and my whip's imported
I know you got a lifestyle, does your man support it?
Going sixty miles, that bitch really scorchin' (Let's get it up
)
You ain't got no plans, are you sure, girl? Don't lie to me
I can have a car on the curb, something light to me
I don't wanna rush, but I don't got too long
If you can do one thing (Give me one more song)

I know you're not the type that's gonna play on both sides
I just wanna see you at the end of my night (Night)
Said that you were perfect, girl, I knew the whole time (Time)
I just wanna see you at the end of my night
I know you're not the type that's gonna play on both sides
I just wanna see you at the end of my night (Night)
Said that you were perfect, girl, I knew the whole time (Time)
I just wanna see you at the end of my night
Said that you were perfect but I knew the whole time
I just wanna see you at the end of my night

(Night)
(At the end of my night, night)
(At the end of—)
I just wanna see you at the end of my night
I just wanna see you at the end of my night
