

sweet tooth

ericdoa

Last one couldn't stand me
Baby I could really show you what we can be ugh
I know it's hard to understand me
I just wanna be the last one standing ahhhh!

I remind her of a sourpatch kid
They don't make em like this
Tell you something sweet feel a pain in your rib
Only taste sugar on the end of your lips
Swear there any none sweeter than some love from my bitch

Gotta sweet tooth come and chew me up
I got something that you need that you love
Gotta sweet tooth come and chew me up
I got something that you need that you love

Doctor said I'm bad for you
You can tell a white lie
Only had a few
I'm just doing what I have to do
You can pull me apart but I'm still half of you

I don't like change so I tend to lash out
Take too much, then you might crash out
Girl you know me everything that I'm bout
Swear I'm so clean way I melt in your mouth

I remind her of a sourpatch kid
They don't make em like this
Tell you something sweet feel a pain in your rib
Only taste sugar on the end of your lips
Swear there any none sweeter than some love from my bitch

I remind her of a sourpatch kid
They don't make em like this
Tell you something sweet feel a pain in your rib
Only taste sugar on the end of your lips
Swear there any none sweeter than some love from my bitch

Gotta sweet tooth come and chew me up
I got something that you need that you love
Gotta sweet tooth come and chew me up
I got something that you need that you love
