

Da Wave

Erick Sermon

Abort your plan, baby out the womb
Your days up, raise up
Mummy out the tomb
Bandit, back on my shit again nigga
Taking the game back, I'm a Indian dipper
Everybody eating off my culture but me
Now it's time for y'all to S.T.O.P
A Long Island Brooklyn nigga, better beware
When I call up my crew
My niggas better be there
Like Michael, got weapons for niggas thinking they bad
I don't give a fuck if they in the game, they give me head
When you hate, it's gon' determine your fate
Guaranteeing that day, it be coming your way
With that same bottle service, at your service
Black roses, couple of folks with blank clothes
God on my shoulders
I'm so ferocious, bad to the bone; osteoporosis
Lion, I'm the king of the jungle
Muhammad Ali, Foreman - that's how I rumble
You can come through like a champ or you can crumble
Look nigga you food, word to Stack Bundles

Now all I need
I'm living my best life
So dripping got me looking like city lights
Times money and I don't waste none of mine baby
Watch the wave
Same me just a new day
And everyday I'm building this legacy
There will never be another me baby

You acting like a bitch right now, but you a menace
Yeah I'll wait, let me know when you're finished
So I can replenish the mind with the dope
One shot; Eminem, the nine with the scope
You something to show me homie?
Then do something
You act like Pac but you ain't got no juice though
You wanna be a rider, rider
When you a lame outsider, sider
Niggas coming you a hider, hider
Peek-a-boo I see you, you liar
Catch one when they see the squad coming
Garbage truck; bang bang, everyone dumping
Rock drop the beat now
Everyone is jumping
Huh, mmm mm mm, ain't that something?

Now all I need
I'm living my best life
So dripping got me looking like city lights
Times money and I don't waste none of mine baby
Watch the wave
Same me just a new day
And everyday I'm building this legacy
There will never be another me baby

I knew what they be saying behind my back
But I'm back for niggas thinking that I lost it
Peep the names on them plaques
Had the game on my back so long I'm exhausted
I knew what they be saying behind my back
But I'm back for niggas thinking that I lost it
Peep the names on them plaques
Had the game on my back so long I'm exhausted
