Don't tell me that you ride for your niggas
And you'll die for your niggas
And your niggas ain't ridin' for you (For you)
Funny how we all fallin' victim to the lies in scriptures that I heard we ju
st say to be true
Now I could see the flaws in a perfect man (Perfect man)
And I could see the law only work for them (Work for them)
It's hard to get involved with a helpin' hand
When you from where I'm from, they don't give a damn
Where I come from

Where I come from, BLM, we screamin'
MLK, man, we out here dreamin' (Uh huh)
Homie, it's go time
Your mark, get ready, set, go
Some of y'all still not ready
Huh, you still wanna blame it on the system
That's played out now, ain't nobody listenin'
Mad information all across the nation
All over the TV, all over the station
Them cops is crooked, we get them straight
Yeah, I go 'head and wait 'til American's great
'Cause Trump just a man, he's human
He can't stop nothin' that God is doin' (Uh huh)
Y'all keep pursuin' and go be the spirit (Yup)
Tell a hater, "Sit down, be humble," word to Kendrick (Huh)
Who care if they offended
Your fears, you face 'em
All doubts erase 'em
Your dreams, you chase 'em, yeah

Don't tell me that you ride for your niggas
And you'll die for your niggas
And your niggas ain't ridin' for you (For you)

Where I come from

It's the same as it ever was, back of the bus
Sittin' in the driver's seat, that was never us (Nah)
Spare me with the speech, please, we done said enough
And I ain't talkin' money when I say, "In God we trust"
Who you gon' trust? Definitely not the President
Heard it all before, I'm bein' careful not to step in it
Even though I be comin' with the messages, my flow grade-

A, you don't wanna F with this
Catch me in the hood, I be on my Treyvon
In that same hood, I was on my Avon
Linkin' with the Cubans in Miami on my Raekwon (Yes)
Been raised from the dead like a seance (Yes)
Stay strong in these uncertain times
I know havin' priors gotta make you wonder if it's worth applyin'
Why not? I find the truth to be worth me dyin'
It ain't made me a dollar sign, it make me deny

Serve and Protect, [?] we die
System's a wreck, they're takin' the lives of my young black beautiful brothers
They barely get along with each other
I pray that the day come, pain, no sail 'em
Faith a hold on one life (Go, go, go, go)
I [?] where I come from
There's no many lost ones
Families caught up, fallin' victim, how come?
When the cops come, they're not really for us, propaganda
So now, who do we trust?
Where I come from
