The best bars, modern day Def Squad  
The new addition to that  
Reggie Noble Jr, how wicked is that?  
Ugly torture walkin' through muddy waters  
Bunch of niggas in black  
You punch the clock, I punch niggas that rap  
The pump'll lift up your hat  
Knock off the brim and the skin is attached  
Keith Murray, the most beautiful MAC-10 in my lap  
It's Payne, I sent a bullet at you straight out the Ruger  
Das EFX shit, straight out the sewer  
Shit I'm hungry, I murdered my laptop and I ate the computer  
I got infinite WiFi, they should pay me to use it

Fuck who like it this how it has to be  
It's Payne, I'm the vermin exterminator  
Word to Erick Sermon, I'm the new version of Terminator  
The God, prayer rug and a turban a work of nature  
I don't even write raps, my words merge with the paper  
I'm cooking dope like I'm whippin' a Camaro  
I get it fresh off the boat in my fisherman apparel  
Street competition like Kane when he was visiting with  
Shit the bullets so big, I can't fit 'em in the barrel  
You now looking at a motherfucking king  
Am I Def Squad? Yeah, I don't hear a motherfucking thing
