

Set It Off

Erick Sermon

This goes out to my peoples in Queens. Representing, Brooklyn, Uptown.

Yeah, yeah Boogie Down Bronx, Staten Island, all the way to New Jerisy.

Tri State Area. Long Island

Ha ha, welcome radio land and others, my underground brothers i s mad deep

like gutters

I bring it no matter what the situation, underwater, through fire

Across barded wire, what? I'm quick to Change Faces without R. Kelly

When you step on me you best be ready. I heats it up like house kitchen

When I'm bitchin' with this redition, chill or you might catch an ass whippin'

There's something wrong ha, I can't go on, and commence

Tear the frame out an MC's ass with the quickness, no forgiveness

This is the way E does buisness, one touch and I'll weaken the average came to be rap star

By far by far, my entourage is Sugar Hill like Wesly Snipes

Def Squad is the main attraction for y'all everynight

"I came through the door" - [Rakim]

And I set it off [x4]

Dun da da, the E Double brings it full steam

Eyes are green, yeah, taken sucker niggas for they cream

I rock the mic, alright, with intentions to please and decapitate all gimmick MC's

Yeah, I come action packed like a flick, and dismantle those duck MC's that can't handle

My sound goes through my musical speakers, beeotch, and flash a symbol like the Grym Reaper

To signify, gamma ray I display on wax is ridiculous, way out likt the crew on Star Trek

Yeah, I keep my style Black like Panthers, with women more fat than Samathas

Damn, this don't make no F in' sense, for me to be on top bigger than monuments

A star ghost super nova turns into a black hole

That got put into your soul

For those that envy me and say I ain't about nothing and everthing you see my names on something

Flawless, outlandish, unique complete, off the wall technique I
develop without speech (woah)
On bended knee I could damage an MC, thorougholy
Yeah, yeah take him for his currency, remarkable, the black Sup
erman in the sky
Flying through the air with green eyes

Yeah, yeah yeah, watch your back black. Don't even step up, wor
d is born.

Def Squad for life, PPP taking it everywhere, midwest, mideast,
