

One Big Memory

Erik Hassle

We started this thing
Was all thunder and lighting
We had a goal, I know that
We could really go together
Going at forever
A perfect show, I know what

You let yourself go
And something I saw
Turned into one decision
Just remember
We had it all, we had it
We have now one big memory
So walk away, don't worry
We still have one big memory

You don't have to say
That things didn't go our way
Too heavy alone, I know that
You don't have to tell me
Ain't no cure, ain't no remedy
Too heavy alone, I know but

You let yourself go
And something I saw
Turned into one decision
Just remember
We had it all, we had it
We have now one big memory
So forget, don't worry
We still have one big memory

You let yourself go
And something I saw
Turned into one decision
Better wait I won't never let go
You should know
I will never let go
You should know

Woah, woah, one big memory
