Erik Hassle

Been around the world
Looking for the cure for pain
No matter where I go
Everybody looks the same
No escaping this heart from breaking
Baby, when I think of you
Oh, when I think of

She's so pretty and the night's still young
I'll block you out, let me have some fun
I'm falling down, I'm falling out
I'm falling over
Why I won't go chasing clouds
And I end up somewhere where the sun don't shine
I'm falling down, I'm falling out
I'm falling over

They say what doesn't kill you makes you stronger
I don't know about that
You left me in a bad state
Now I feel everything but strong, yeah
And there's no way back
There's no way back
What doesn't kill you makes you smaller
What doesn't kill you makes you cold
What doesn't kill you makes you wonder
If all there is is nothing at all

This situation needs medication
There's no way back, no
There's no way back to you
Gotta keep on walking this road to nothing
Cause there's no way back
Baby, when I think of

She's so pretty and the night's still young
I'll block you out, let me have some fun
I'm falling down, I'm falling out
I'm falling over
Why I won't go chasing clouds
And I end up somewhere where the sun don't shine
I'm falling down, I'm falling out
I'm falling over

They say what doesn't kill you makes you stronger
I don't know about that
You left me in a bad state
Now I feel everything but strong, yeah
And there's no way back
There's no way back
What doesn't kill you makes you smaller
What doesn't kill you makes you cold
What doesn't kill you makes you wonder
If all there is is nothing at all
If all there is is nothing at all, yeah
If all there is is nothing at all
