

# Goodbye's Not Forever

Erik Santos

I never knew our love would end this way  
I though this love could make it to forever  
You said goodbye and you left me all alone  
How can I live without your love  
How can I carry on

Baby, I need your love  
I wish you were here to stay  
Cause here I am, please love me again  
Bring back our hearts together  
Don't let this love of mine  
Keep longing for all the time  
When you and I  
Can build a dream forever

I asked myself why you turned and walked away  
Please tell me how so that I can make you stay  
But you said goodbye and you left me all alone  
How can I live without your love  
How can I carry on

Baby, I need your love  
I wish you were here to stay  
Cause here I am, please love me again  
Bring back our hearts together  
Don't let this love of mine  
Keep longing for all the time  
When you and I  
Can build a dream forever

Baby, I need your love  
I wish you were here to stay  
Cause here I am, please love me again  
Bring back our hearts together  
Don't let this love of mine  
Keep longing for all the time  
When you and I  
Can build a dream forever

When you and I can share the love forever
