

I Believe

Erik Santos

I believe we'll be together
And we can be one again
I believe in the end it's still you and I
'Cause you've been the best lover and friend
Deep in my heart I know that
You never meant to walk away
And I know you wanted to stay

I believe, I believe
I believe, I believe

I believe one day you'll wake-up
And you will be missing me
And I know that you will come back
Oh, come back to the one you really love
And when that day comes
I'll take you in my arms again
And never ever let you go

Deep in my heart I know that
You never meant to walk away
And I know you wanted to stay

And I believe
