

Mystery

Erik Santos

The moment you walked through the door
My heart stopped beating
I know you've heard that line before
Baby don't tease me...

Somehow I knew that I met you before
Without you I am lost

Baby you're a mystery
I know what you do to me
And I know, 'cause love's a mystery
Baby you're a mystery
You walked into my dream
And I know
'Cause you're a mystery

The moment your eyes met mine
I feel the passion
I guess it's time to realize
Anything can happen

With your sweet kiss
How can I miss your love
Don't leave me hangin' on

How can I... Each time you cry,
Hold you endlessly...
Will there ever be you and me?
Baby it's here and now...
