

Suddenly It's Magic

Erik Santos

I always thought I would be strong
If I made it through the pain
I've been in and out of love
And it all hurts just the same
Love can really change your life
There's somethin' magic in my world tonight

I feel so free, it's like a fantasy
Havin' you next to me
Suddenly it's magic
One look, one touch
Words just won't say enough
When you fall in love
Suddenly, suddenly it's magic

I'm not afraid of letting go
I've got to find what's right for me
I'm not afraid to stand alone
If that's the way it has to be
After all that I've been through
There's magic when I'm hear with you

I feel, so free, it's like a fantasy
Havin' you next to me
Suddenly it's magic
One look, one touch
Words just won't say enough
When you fall in love
Suddenly, suddenly it's magic

We can dream our dream forever
When I'm here with you, baby
Heaven's a heartbeat away
Now that we're together
Love could last forever
There's magic in my life
When I'm with you, you...

I feel so free, it's like a fantasy
Havin' you next to me
Suddenly it's magic
One look, one touch
Words just don't say enough
When you fall in love
Suddenly, suddenly it's magic

When you fall in love
Suddenly it's magic
