

# Dynamite

Erika Costell

Take away the money  
Take away the pressure  
You can't take away the way we feel together

There's always higher places  
There's always bigger things  
But it don't feel as good as having you here with me

I know I said it before  
I know I said it before  
But I could give it all up  
All up  
Yeah  
I know I said it before  
I know I said it before  
But I could give it all up  
Got matching tattoos  
Only would do it with you

I wanna waste my time with you  
I wanna go all night with you  
Hope that you know I ride for you  
Feels like dynamite when I'm with you  
Like boom  
Like dynamite when I'm with you

Something gold about us  
Everything that we touch  
We are undefeated  
Even at our weakest

There's always higher places  
There's always bigger things  
But it don't feel as good as having you here with me

I know I said it before  
I know I said it before  
But I could give it all up  
All up  
Yeah  
I know I said it before  
I know I said it before  
But I could give it all up  
Got matching tattoos  
Only would do it with you

I wanna waste my time with you  
I wanna go all night with you  
Hope that you know I ride for you  
Feels like dynamite when I'm with you  
Like boom  
Like dynamite when I'm with you

I know I know  
We got a love that's so out control  
I know I know  
You light my fuse and it might explode

I know I know  
We got a love that's so out control  
I know I know  
You light my fuse and it might explode

I wanna waste my time with you  
I wanna go all night with you  
Hope that you know I ride for you  
Feels like dynamite when I'm with you  
Like boom
