

# Better Than That

Erika De Casier

I thought you knew better, better than that  
I can do better, better than that  
You thought I'd crumble  
Well, baby (No), no  
Like some, I'll be quick to see it  
Before I'd let it get to me

Why you gotta change your mind like that?  
I don't get the meaning  
Never thought you'd go behind my back  
And deceive me  
I can read the truth right in your eyes  
You're way too easy  
Still, I can't believe it

Where you gonna go?  
Who you gonna hold?  
How you gonna laugh when you know I'm all alone?  
And what am I supposed to do?  
Already watched the TED Talk, I might let go

I thought you knew better, better than that  
I can do better, better than that  
You thought I'd crumble  
Well, baby (No), no  
Like some, I'll be quick to see it  
Before I'd let it get to me

Why you gotta change your mind like that?  
I don't get the meaning  
Never thought you'd go behind my back  
And deceive me  
I can read the truth right in your eyes  
You're way too easy  
Still, I can't believe it

No, no  
Haha  
Don't give me all that attitude  
I know my worth, you know  
You're making such a fuss (Please hush)  
No, thank you very much  
You know all of my secrets  
And I can't take them back  
So hold them like they're yours  
Now that you won't be mine

I know what you're doing, what you think this is?  
It's not gonna work on me (It's not gonna work on me)  
Don't play dumb, you say you're dumb  
But you know exactly  
What you're doing to me, baby (What you're doing to me, baby)  
Just 'cause you're sexy (Just 'cause you're sexy)  
Do you think you can play with me? (Do you think you can play with me?)

I thought you knew better, better than that  
I can do better, better than that

You thought I'd crumble  
Well, baby (No), no  
Like some, I'll be quick to see it  
Before I'd let it get to me
