You didn't take much
To make my mind up
I got it all figured out
I got time now
I'm feeling on it
And it's alright now
What would you do if I got into you?

You know I'm persuasive
Can't get you out of my head, babe
And if I'm not mistaken
There's a risk, you might just like it

So take a bite of me
I got plenty of
Take a bite of me
I'm feeling friendly
Take a bite of me
I got plenty of
Take a bite of me
I'm feeling friendly

You know I'm persuasive
Can't get you out of my head, babe
And if I'm not mistaken
There's a risk, you might just like it

So take a bite of me
I got plenty of
Take a bite of me
I'm feeling friendly
Take a bite of me
I got plenty of
Take a bite of me
I'm feeling friendly

And it go up, down
Do a little something like this
And just a little louder
So it's all mine
You can show me what you want
Move a little closer now
You can tell me all about it
How it tickles when you do that, baby
I know exactly how I want it
And it's not something to be ashamed about
It's just a little something like this
And it go up, down
Do a little something like this
And just a little louder
So it's all mine
You can show me what you want
Move a little closer now
You can tell me all about it
How it tickles when you do that, baby
I know exactly how I want it
And it's not something to be ashamed about

It's just a little something like this
