

Tonight in my disappointment and pride
I am amplified

They asked if I would be alright
Weren't I amplified

Tonight the pleasure would have been all mine
Weren't I amplified

The next time you come won't pass me by
I will amplify

You never know what you miss 'til you have it
You never know what you miss 'til you've had it
Burn Birmingham, burn Birmingham, I will wait
Burn Birmingham, I will wait
A girl turns 28

All the noise I heard when waking up
Couldn't stay inside my head
Amplified and taking over me
What I held broke instead

The next time you come won't pass me by
I will amplify
