

## Baghdad to the Bayou

Erin McKeown

From baghdad to the bayou  
In the desert or plaquemines  
For every gallon spilled  
We want to know where the payoff is  
In the strip mines or the lower 9th  
Fallujah to la fourche  
For every gallon drilled  
We're gonna organize for truth  
Deep water horizon sound like  
Deep water lies  
Sounds like one hand washes the other  
While our neighborhoods are dying  
Street by street we will repeat  
The revolutions of the spring  
You can't stop a people  
When a people start to sing  
From tucson to kabul  
On the border or in the hills  
For every detainee  
We wanna know where justice is  
For every ballot by the bullet  
For every election thats been bought  
For every secret handshake  
We wanna hold the mirror up  
Who is watching the watcher?  
Whose hand is in the pie?  
Who is reaping profits  
On the back of our coast lines?  
For every feather oiled  
For every katrina refugee  
For every soldier in harm's way  
We want accountability  
From baghdad to the bayou...
