

Just A Drink Away

Ernest Tubb

See that girl at the bar she just took my house and car
And the little ones that meant to world to me
She gets wilder day by day now she's just a drink away
Just a drink away from anyone but me
So step up to the bar makes no difference who you are
You'll be welcomed just as long as she can see
That she's tearing out my heart like she planned from the start
She's just a drink away from anyone but me
I tried so hard to leave this town but it seems I'm tied and bound
To a love that somehow just won't set me free
And I miss my baby so and I pray they'll never know
She's just a drink away from anyone but me
If the judge could only see what she does to punish me
I wonder how he'd feel about her now
Would he still think that she's right If he could see her here
each night
Just a drink away from anyone but me
She's just a drink away from anyone but me
