

Kansas City Blues

Ernest Tubb

Lord I wish I was a catfish swimmin' in the sea
With lots of pretty women Lord it's fish after me
And I'd move then I'd move then I'd move to Kansas City
Honey baby where they don't want you
Now they call me pretty papa the smallest guy in town
The women are crazy bout me but my good gal turned me down
She done move she done move she done move to Kansas City
Honey baby where they don't want you

Now I walk upon the broadway looking down the peel
Looking for the gal that they call Lucille
She done move she done move she done move to Kansas City
Honey baby where they don't want you
Now foolin' round to Nashville as blue as I can be
Looking for the blond that made a champ out of me
She done move she done move she done move to Kansas City
Honey baby where they don't want you
