

# You'll Still Be In My Heart

Ernest Tubb

There was a time when you were mine and my heart knew no pain  
But since that time sweetheart I find there's been an awful change

The love I knew has proved untrue and now we're far apart  
No matter how you treat me now you'll still be in my heart

I understand your many plans I brought you wealth and pride  
With all your gold when love is cold you'll be dis-satisfied  
You were untrue because you knew I loved you from the start  
Though you find bliss in another's kiss you'll still be in my heart

I can't erase the lovely face no matter how I try  
When friends we knew just mention you I hang my head and cry  
You turned me down because you found you play the leadin' part  
Those lonely years I'll spend in tears you'll still be in my heart

My one request when I lay to rest the future has in store  
On that sad day beneath the clay to sleep forever more  
Should you be there in deep despair when burning teardrops start  
Please, don't forget I love you yet you'll still be in my heart
