

Insane

ERNEST

I go coco for your tequila soda kisses
Yeah I go loco, when you leave baby I'm in stitches
This is a little more than I bargained for
But I know, it's the farthest I fell for sure

'Cause I feel that flame
When you pull me in the world fades away
When you say my name
Rolls off your tongue different every day
I ain't lost my mind like this here before
Whenever I ain't got all of you
A couple screws get a lotta loose
I go a little insane
I go a little insane

Girl, you got that mojo, kinda vibe I can't put a name on
But imma need a lot more of your parade that can't get rained on
Said I ain't been up this high before, I know
'Cause I ain't seen this many stars, oh no
Oh no

Yeah I feel that flame
When you pull me in the world fades away
When you say my name
Rolls off your tongue different every day
I ain't lost my mind like this here before
Whenever I ain't got all of you
A couple screws get a lotta loose
I go a little insane
I go a little insane

They call me crazy but I never care
What they gotta say, ooh cause
I'm so insane

Girl I feel that flame
When you pull me in the world fades away
When you say my name
Rolls off your tongue different every day
I ain't lost my mind like this here before
Whenever I ain't got all of you
A couple screws get a lotta loose
I go a little insane
I go a little insane

I go a little insane
