

# Keep You Close

ERNEST

Anywhere you wanna go, baby we'll go

Nashville gets cold  
Summer straight to winter, where went fall (mmhmm)  
It never gets old  
I know you hate it when it rains  
The red leaves get gone, all gone  
But girl we get to lay around  
All-day long  
We can break it down to a country song  
Getting faded out  
You and me can't do no wrong

That's why I keep you close  
'Cause I need you most  
I'm gonna hold you like I'm supposed to do  
I wanna feed your fire  
Yeah I walk that line  
Anything I'll do it all for you  
I'll make the seasons change  
I'll make sunshine out of rain  
Anywhere you wanna go baby we'll go (hmmm)  
And I'll keep you close

Keep sand on your toes  
Baby on some old beach  
No, I won't let go  
Ooh and I'll show you off  
All over that town  
Girl this whole world's crazy  
You're my only way out

That's why I keep you close  
'Cause I need you most  
I'm gonna hold you like I'm supposed to do  
I wanna feed your fire  
Yeah I walk that line  
Anything I'll do it all for you  
I'll make the seasons change  
I'll make sunshine out of rain  
Anywhere you wanna go baby we'll go (hmmm)  
And I'll keep you close  
I'll keep you close

So baby let's lay around  
All night long  
We can break it down  
Till the break of dawn  
Getting faded out  
You and me can't do no wrong

That's why I keep you close  
'Cause I need you most  
I'm gonna hold you like I'm supposed to do  
I wanna feed your fire  
Yeah I walk that line  
Anything I'll do it all for you

I'll make the seasons change  
I'll make sunshine out of rain  
Anywhere you wanna go baby we'll go (hmmm)  
And I'll keep you close

I'll keep you close  
I'll keep you close
