

Night Life

ERNEST

When the evenin' sun goes down
Oh, you can find me hangin' 'round
But the night life ain't no good life
But it's my life

Many people just like me
Dreamin' up 'old used to be's'
The night life ain't no good life
But it's my life

Listen to the blues they're playin'
Oh, listen to the blues they're sayin'

Mine is just another scene
From the world of broken dreams
But the night life, it ain't no good life
Oh baby, but it's my life

Yeah, listen to the blues they're playin'
Oh, somebody listen to the blues what they're sayin'

Oh but the night life, oh it ain't no good life honey, but it's mine

I said the night life ain't no good life but it's mine
Ain't no good life
Ain't no good life
But it's mine, mine
It's all I know
My life

Seems like everytime I wake up I wind up stayin' up late out drinkin' beer

What you don' later on ERNEST? You wanna grab one?

I'd love to grab one

I think it sounds like a plan man, go out here downtown somewhere and get us a brew

I got a doobie in my backpack I believe

I got one in my system

If I ain't got one I'll find one somewhere

That life, that life ain't for the faint of heart

But I'll be god damned if it ain't my life

Pass me that thing
