Twisted

ERNEST

I'm getting twisted off tequila
And all I seem to think about is you
I'm gonna spend all of my pesos
And girl, I'm gonna spend 'em all on you
I'm gonna chase it with cerveza
While you keep on doing what you do
I'll keep on spending all these pesos
And girl, I'm gonna spend 'em all on you

I'm so tore up on Corona
Marijuana smoking wanna be
On somebody who really wanna get on it
Between tequila and tonic
I think that body's bionic
And just don't see any problems if she wan' flaunt it
She got me tryna speak Spanglish
I swear that body is dangerous
We in the club and I'ma vamos a bailar
She talking all broken english
We got caught up in our feelings
Get rid of all the cash I brought

I'm getting twisted off tequila
And all I seem to think about is you
I'm gonna spend all of my pesos
And girl, I'm gonna spend 'em all on you
I'm gonna chase it with cerveza
While you keep on doing what you do
I'll keep on spending all these pesos
And girl, I'm gonna spend 'em all on you

Now it's like four in the morning
This club's about to be closing
So I should probably try and find my own way home
But she's still looking like money
And I just think that it's funny
'Cause she just told me she ain't going home alone
That booty fuego, I'm pyros
She rock a halo but I know
That that diablo probably follows where she goes
So I just see where she takes me
The margarita looks tasty
And baby blue eyes, you should know I love you so

I'm getting twisted off tequila
And all I seem to think about is you
I'm gonna spend all of my pesos
And girl, I'm gonna spend 'em all on you
I'm gonna chase it with cerveza
While you keep on doing what you do
I'll keep on spending all these pesos
And girl, I'm gonna spend 'em all on you
