

## Melissa

Ernie Halter

You shine the light Melissa  
You really took it all yourself  
You sang a lot of love songs, and wrote some  
You knew it all so well

You lead the way Melissa  
You're going to ride the chariot  
Everybody cheers and cries some  
We'll keep on standing up

Now that the one you love is gone  
You are the girl to carry on  
Now that you've taken off your cross  
Love is not lost  
Love is not lost

You've seen it all Melissa  
You're going to wear Elijah's clothes  
You give yourself completely  
You walk salvation's road

Now that the one you love is gone  
you are the girl to carry on  
now that you've taken off your cross  
love is not lost  
baby love is not lost  
Love is not lost

Now that the one you love is gone  
you are the girl to carry on  
Now that you've taken off your cross  
Love is not lost  
Love is not lost  
If you believe in love in love  
If you believe in love in love  
If you believe in love in love  
Love is not lost
