

Moving Along

Ernie Halter

Each step of my life took dedication
I, I'm looking on at my relations
This dusty road, and open sky
Shelter the ones that I keep inside
Loving you so letting you go
Baby moving along

Time brushes my cheek
With such emotion
I carried the seed with my devotion
Do it right, do it wrong
Walking that way when the feeling's strong
I got to live more than I give
Moving along
The tracks of my years
Wind through the hills
Knowing they will
Valleys so green
You know what I mean

Whoo, Do it right, do it wrong
Walking that way when the feeling's strong
I got to live more than I give
Baby moving along

This dusty road, open sky
Shelter the ones that I keep inside
Loving you so letting you go
Moving along
Loving you so letting you go
Baby moving along
Loving you so letting you go
Moving along
