

We Got Love

Ernie Halter

Times like these
It's getting hard to be as strong as we need to be
And I know
It ain't easy to live this way
We're just getting by
We don't have a lot to spend but time, time, time
And I know
One thing is never far away

All the money in the world can't buy it
You better hold on if you can't find it

We got love that'll last for ages
We got love that never changes
In a world with too little
We got more than enough
We got each other when life gets too rough
We ain't never gonna let it get to us
We don't have much, baby
It's a good thing we got love
We got love
We got love
We got love

Even though life's not fair
It's not always where you go, it's the gettin' there
And you and me
We'll never walk this road alone

'Cause the good stuff don't cost nothin'
But it's everything that we've wanted

We got love that'll last for ages
We got love that never changes
In a world with too little
We got more than enough
We got each other when life gets too rough
We ain't never gonna let it get to us
We don't have much, baby
It's a good thing we got love
We got love
We got love
We got love

We don't have much, baby
It's a good thing we got love
We don't have much, baby
It's a good thing we got love

Oh, we got love
