

Electric Twilight

Erra

Spirit's intervention, senses come alive
Thoughts and awareness collide, overwhelmed
Let go

Sensations pulse like a tidal wave
Buried underneath
The breathing Earth as a Goddess
Tethers unperceived
Invoked transcendentalist
Highs on which you grow reliant
Windwalker in stride

Cover all the mirrors, too shy of the edge
Catalyze transcendence, ego approaching death
Palm lines tracing back ink Rorschach
Manifesting a psychedelic flashback
Fragile mind tripping at the base
Pondering an Aokigahara sayonara
Drowning in a black sea of trees

Sensations pulse like a tidal wave
Buried underneath
The breathing Earth as a Goddess
Tethers unperceived
Invoked transcendentalist
Highs on which you grow reliant

Technicolored clouds alive in the twilight
Storm pulse spider webs dance in archaic light

Rubymeat, bass beat, beat to electric twilight
Rubymeat, bass beat, beat to electric twilight
Senses come alive

Sensations pulse like a tidal wave
Buried underneath
The breathing Earth as a Goddess
Tethers unperceived
Invoked transcendentalist
Life flows through inanimate
Lies of which you learn defiance
Highs on which you grow reliant
Windwalker in stride

Just a ripple in the universal soundwave

Technicolored clouds alive in the twilight
Storm pulse spider webs dance in archaic light
