Computer Love

Eruption

Computer Love
In a world of electric speed
Computer love will fill your need

Are you looking for love?
And are you trying really hard?
Well, there's someone made just for you
On a computer card

Will she be short or tall?
Will she have green eyes?
Will they be blue?
For a lonely man, any woman will do

Computer love is a cold, cold lover
Is she for real, the girl of your dream?
How do you feel (How do you feel)
When you kiss your new machine?
Computer love is a cold, cold lover
Computer love is a cold, cold lover

I have set it so low
Find yourself walking to her door
Though you've never met her
The computer knows the score

Will there be fun and games?
Will you know her name?
Have a heart so true

And promise to love a stranger like you

Computer love is a cold, cold lover
Is she for real, the girl of your dream?
How do you feel (How do you feel)
When you kiss your new machine?
Computer love is a cold, cold lover
Computer love is a cold, cold lover

Computer love is a cold, cold lover
Is she for real, the girl of your dream?
How do you feel (How do you feel)
When you kiss your new machine? Yeah
Computer love is a cold, cold lover
Computer love is a cold, cold lover

Cold, cold, cold love
Cold, cold, cold love
Cold, cold, cold love

Computer love
Computer love
Computer love (How can you love a machine?)
Computer love (This love can't be for real)
Computer love (Cold, cold, cold love)
