

# Fire Is Gone

## Eruption

You take my heart  
You broke it  
And left on the floor  
Baby thought me

The all you think  
And only one you adore  
Now it's great to see  
That you laugh, is laugh

You can't let to me  
The only send those words  
Then went sweet oh so sweet

To laying next to me  
But now we are true  
A could another play  
I don't want you know

Fire is gone  
And we can't build it back  
Fire is gone  
Nothing left but ash

Fire is gone  
And we can't build it back  
It's gone forever

There was a time  
He you made me feel  
I wasn't time

To me my love  
You are everything my heart  
Could desire  
In a real life

That you laugh, is laugh  
You can't let to me  
The only send those words  
Than went sweet oh so sweet

To laying next to me  
But now we are true  
A could another play  
I don't want you know

Fire is gone  
And we can't build it back  
Fire is gone  
Nothing left but ash

Fire is gone  
Fire is gone  
Fire is gone

Is gone is gone

Is gone

Nothing left but ash

Fire is gone

And we can't build it back

Nothing left but ash

Fire is gone

Fire is gone

Fire is gone

Is gone
