

## Leave A Light

Eruption

Leave a light, leave a light  
In my window  
Someone is friendless, cannot find their way  
So I'll, keep a light in my window  
I want to be there, to help restore their faith  
So I'll, keep a light in my window  
Born for God's mercy  
I'd be in their place  
So I'll, keep my light in my window

So I can ease the pain, (that life can bring)  
Help them find a peace, (your spirit needs)  
Have been sure in my heart (to what you need)  
Needs to give a better love  
For me and you

Leave a light, leave a light  
In my window

(Some call me foolish) to lend my helping hand  
So I'll, keep a light in my window  
I feel so good when I help my fellow man  
So I'll, keep a light in my window  
Till love and mercy are shared throughout the land  
I'm gonna, keep a light in my window

So I can ease the pain, (that life can bring)  
Help them find a peace, (your spirit needs)  
Have been sure in my heart (that what you need)  
Needs to give a better love  
For me and you

Leave a light, leave a light  
In my window

Leave a light, leave a light  
In my window
