

Up And Away

Eruption

Up, up, up and away to the sky flyin' high
Up, up, up and away to the sky flyin' high
Up, up, up and away to the sky flyin' high
Up, up, up and away to the sky flyin' high

Come on baby, come fly with me
And feel so good
That's the place that you should be with me
So free

It might sound funny (honey, honey)
Flying around in the sky
Up there it's sunny (honey, honey)
Come on baby, come fly with me

Up, up, up and away to the sky flyin' high

Up, up, up and away to the sky flyin' high
Up, up, up and away to the sky flyin' high
Up, up, up and away to the sky flyin' high

Come on baby, come fly with me
And feel so good
That's the place that you should be with me
So free

It might sound funny (honey, honey)
Flying around in the sky
Up there it's sunny (honey, honey)
Come on baby, come fly with me

Up, up, up and away to the sky flyin' high
Up, up, up and away...
