

# Until We Die

## Escape the Fate

Until we die!

Darkness it floods the sky, like the end of days  
A shattered piece of sanity is all that remains inside my brain  
On the brink of madness, I remember all I love  
Take away the fear for them, I'm not giving up  
Not giving up!

We are not alone  
We are searching for the truth  
And we'll always fight this battle till we die  
We are not alone  
We are searching for the truth  
And we'll always fight this battle till we die

Just like an animal locked inside a cage  
I'm pacing back and forth, waiting with pace so I can escape  
We are the undead, rising from the grave  
I will fight until nothing remains  
Nothing remains!

We are not alone  
We are searching for the truth  
And we'll always fight this battle till we die  
We are not alone  
We are searching for the truth  
And we'll always fight this battle till we,  
Battle till we die

Don't tell me I won't succeed  
It lights the fire under me  
Don't tell me I won't succeed  
It lights the fire, the fire under me

We are not alone  
We are searching for the truth  
And we'll always fight this battle till we die  
We are not alone  
We are searching for the truth  
And we'll always fight this battle till we,  
Battle till we die

Battle till we die
