

Darknesstaker

Escape With Romeo

When I close my eyes
You are calling in my canyons
I can hear what you're saying
when there's no interference

I'm waiting in the pale light
for a new star to fall
surrounded by the men in white coats
they cannot hear me call

ooh darknesstaker
ohh troublebreaker
darknesstaker

Through pills and emotion pictures
I first heard your name
I know that people pray to you
sometimes I do the same

what they never understand
I'm happy in dependency
in the cell that's all around me
I know that you are with me

ooh darknesstaker
ohh troublebreaker
darknesstaker

When night arrives
we float out my prison window
And wander through the corridors
practice the unwritten law

then I'm strong like a taifun
in a mindscape black and blue
when I phantazise in fever
I can unite with you

ooh darknesstaker
ohh troublebreaker
darknesstaker
